

# EP AMP 4/6

## ELECTRIC PASSENGER VEHICLE

ePOWER TRUCKS

# EFFICIENCY REDEFINED

When you need to move people around, nothing compares to our range of electric multi passenger vehicles. Designed to cater to various transportation needs, our EP range of vehicles stands out for its unparalleled capacity, style, and adaptability. Whether you're organising tours, shuttling guests at a stadium, or managing logistics within a university campus or facility, our vehicles are engineered to elevate your transportation experience.

# AMP 4

Here is the answer for the professionals and organisations that are searching for a compact electric vehicle with great power, zero emission and a 4 person capacity. This vehicle is ideal for light work and as a general transport vehicle. A small profile makes it perfect for transporting people in congested areas such as industrial sites and college campuses.

# AMP 4

Whether you're shuttling passengers through crowded National Trust sites or navigating narrow pathways of holiday parks, the EP AMP 4 sets a new standard for urban transportation. With its agile manoeuvrability and compact design, you'll conquer every corner with confidence, while its spacious interior ensures comfort for all passengers
