Standard outfitting

- Swing up/sideways adjustable armrests
- Padded seating and backrest
- Safety brake
- Safety belts
- Choice from our standard colours
- Extendable headrest
- Strap for lower leg fixation
- Strap for knee fixation

Description

Introducing the Aisle Mobby: Your Compact Solution for Airplane Boarding.

Its sleek, extra-thin design navigates narrow aircraft aisles with ease, ensuring swift and comfortable boarding for PRM passengers. The armrests are swing-up and extendable, providing a wider seat and seamless onboard mobility.

The Aisle Mobby comes in two variants to suit different needs. The regular (high) model is ideal for standard use, while the low model features a seat height that greatly aligns with airplane seats, allowing passengers to slide effortlessly between the seat and chair without standing up.

Functionalities

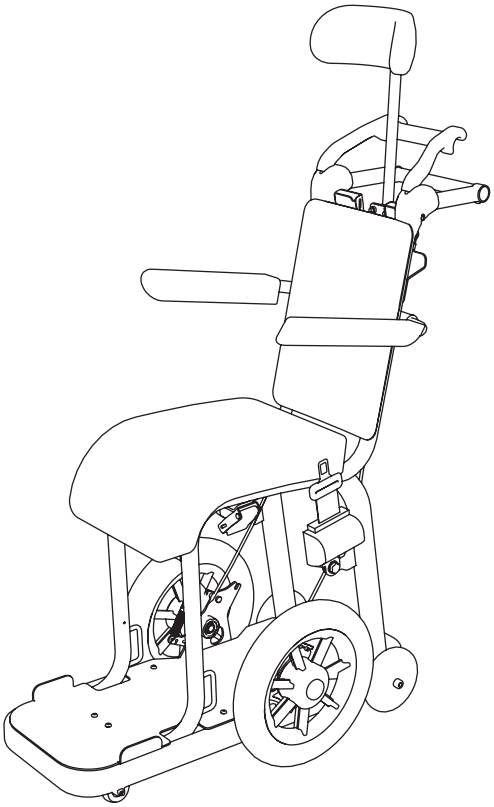

The Aisle Mobby is specifically designed to fit within the narrow confines of airplane aisles, facilitating the seamless transportation of passengers from entry to their seats. With a width of just 38 cm over the wheels, this transport chair is perfectly suited for navigating tight spaces.

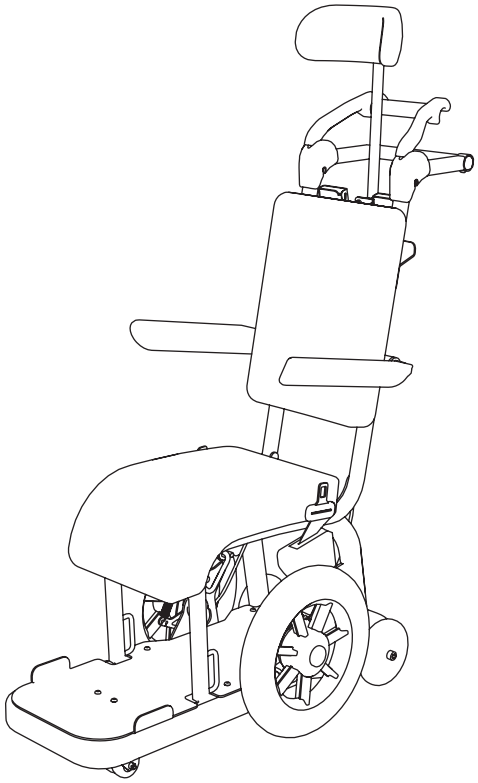

The standard Aisle Mobby has a seat height of approx. 55 cm from the ground. Due to popular demand, we have designed a low variant with a reduced seat height of around 41 cm. This aligns with the seat height of many planes, allowing passengers to slide over to their seat without needing to stand or be lifted if possible.

Experience smooth and efficient boarding processes with the Aisle Mobby.

Technical information

Aisle Mobby (low & high)

Technical specifications

AISLE MOBBY HIGH

- Weight 29,4kg
- Overall height 112,6 cm
- Overall length 90 cm
- Overall width 42 cm to 47 cm (armrest positioning)
- 150kg load capacity
- Puncture proof non-marking tires
- Ground clearance 6 cm
- Effective seat depth is 392 mm, effective seat width is 380 mm, seat height from the ground 550 cm
- Brakesystem: Drumbrakes / safety system
