

Glutton[®] H₂O Perfect[®]

One jet of water gets it clean!

Very simple to use, the 100% electric Glutton[®] H₂O Perfect[®] vacuums, cleans and disinfects your urban spaces

Your cleaning staff can easily remove all the dirt they come across in your town: dog mess, pigeon droppings, grease marks and other dirt stuck or encrusted onto the pavements, public benches, street bins, etc.

Integrated storage sheath

Equipped with an ergonomic water jet that is easy to carry in its integrated storage sheath, the **Glutton[®] H₂O Perfect[®]** delivers significant time and energy savings.

The **Glutton[®] H₂O Perfect[®]** picks up waste from the smallest recesses around town, and deep-cleans what's left. It's the perfect cleaning tool for your maintenance teams.

Your town is clean and disinfected

Benefits for you

➤ Effective 24 m² dust filter

➤ Peace and quiet for local residents

➤ Self-propelled, ergonomic and highly manoeuvrable

➤ Very long battery life

The Glutton® H₂O Perfect® is equipped with an on-board medium-pressure cleaner consisting of:

- A water tank.
- A pump/filter/pressure switch assembly.
- An adjustable, ergonomic, medium-pressure water jet with hose.

After activating the pump on the dashboard, the user presses the trigger on the water jet and the pump starts automatically. The pressure of the jet can be adjusted on the handle (focused or diffused jet).

Glutton® has selected a cleaning agent for you with an attractive, long-lasting eucalyptus scent.

Cleaning staff love this product, which can be used in the reservoir of your **Glutton® H₂O Perfect®** and also in your special dog waste spray (option). You can of course use your normal cleaning agent or disinfectant.
